

## KG I Students' Exciting Field Trip to the Horticulture Centre! 🌿

The KG I students of Sir John Wilson School had an exciting field trip to the Horticulture Centre in Gulshan 2 on 11th, 12th, and 13th February 2025. The hands-on learning experience allowed them to explore and identify various types of plants, bringing to life what they had studied in their Science lessons.

But that's not all! The journey to the park was just as fun as the destination. The students enjoyed a lively bus ride, where they observed different traffic signals along the way. This helped reinforce their Geography lessons on road safety, making them more aware of how street signs guide pedestrians and vehicles to ensure safety.

The memorable day included a refreshing snack break, and each student was given a plant to take home, creating lasting memories of the trip. 🌱

This field trip beautifully blended education with real-world exploration, fostering curiosity, excitement, and a love for learning! ❤️
